

PROLENSA™ (bromfenac ophthalmic solution) 0.07%

PROLENSA™ LABEL CHANGE

Dear Pharmacist:

Please note that there has been a label change for the product PROLENSA™. The label will now indicate that it can be **discarded after 28 days of use**, instead of 14 days as previously stated. This update can be found in the in-use statement in the Product Monograph for PROLENSA™.

PROLENSA™ bottles with the new '28 day discard' label can be ordered from your usual distributor and will be available once the inventory of the bottle with the previous label has been depleted.

Please note that the drug identification number (DIN) of PROLENSA™ remain unchanged.

Product	Format	DIN
PROLENSA™ (bromfenac ophthalmic solution 0.07% w/v)	Solution (3 ml)	02439123

PROLENSA™ (bromfenac ophthalmic solution 0.07%) is a non-steroidal anti-inflammatory agent indicated for the treatment of postoperative inflammation and reduction of ocular pain in patients who have undergone cataract surgery. Administration involves instillation of one drop into the affected eye once daily beginning 1 day prior to surgery, continued on the day of surgery, and through the first 14 days of the postoperative period. Discard any unused eye drops 28 days after opening.

If you require further information, please feel free to contact Bausch+Lomb Customer Service at 1-888-459-5000 for any questions.

Yours sincerely,
