

Prevent Urinary Tract Infection

NEW! Utielle Cranberry & Hibiscus Synergy

- Helps in the prevention of recurrent cystitis in women.
- Contains Branded Ingredients Nutrican Cranberry* and Ellirose Hibiscus extract**
- Effective formula for those who are most prone to recurrent UTI's.
- One a day format offers convenience and simplicity for consumer.

**** Hibiscus extract was effective in reducing urinary tract infections up to 89% after 6 months in comparison to the placebo group.**

Allaert FA (2010) Prevention of recurrent cystitis in women: double blind, placebo-controlled study of Hibiscus sabdariffa L. Extract. La Lettre de l'Infectiologue 25: 1-5.

*** Study showed that taking 500 mg of cranberry extract daily for 6 month has comparable efficacy and better safety profile than trimethoprim (100 mg daily) in preventing urinary tract infection in women with recurrent infections.**

McMurdo MET, Argo I, Phillips G, et al. Cranberry or trimethoprim for the prevention of recurrent urinary tract infections: A randomized control trial in older women. J Antimicrob Chemother 2009;63:389-95

A natural route to decrease the occurrence of UTI's
