September 2017

Dear Colleague,

We are pleased to invite you to attend the 2017 Thrombosis Canada education conference, **Thrombosis Pearls and Perils, 2017**. The meeting will be held on Saturday, November 11, 2017 and features thrombosis experts from across Canada. This program will cover a wide range of thrombosis-related topics relevant to your practice.

You will find the agenda and registration details for the program here: [thrombosiscanada.ca/2017annualconference](http://thrombosiscanada.ca/2017annualconference). The multidisciplinary steering committee has developed the content to meet the needs of all health care providers who manage patients with thrombosis.

*The Canadian Council on Continuing Education in Pharmacy has accredited this program for 4 CEUs.*

With this program, it is our expectation that you will be better equipped to:

- Prescribe a safe and effective perioperative anticoagulant plan for patients on anticoagulant therapy who need to undergo elective invasive procedures or surgeries.
- Plan for management of venous thromboembolism the primary care setting.
- Meet the needs of atrial fibrillation patients who have a high risk for bleeding and stroke
- Effectively manage bleeding risk for patients on anticoagulants.
- Personalize thrombotic risk management in women with a personal or family history of venous thromboembolism considering pregnancy or hormonal therapy.
- Tailor evidence-based antithrombotic therapy in patients who require dual antiplatelet therapy and anticoagulant therapy.

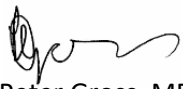

The meeting is being held at the Intercontinental Hotel in downtown Toronto. The early registration deadline is October 13. We have also negotiated limited discount room rates for those who wish to stay the night before. To register for the program or for more information go to our website here: [www.thrombosiscanada.ca/2017annualconference](http://www.thrombosiscanada.ca/2017annualconference) (use coupon code TC2017pharm1 for \$10 off).

It would be great to see you there.

Sincerely,

Marc Carrier, MD  
Meeting Co-Chair

Peter Gross, MD
