Danielle Chouinard
Product Manager

Bi-Peglyte is indicated for cleansing of the colon as a preparation for colonoscopy in adults. Colyte and Peglyte are indicated for bowel cleansing prior to colonoscopy or barium enema x-ray examination or surgical procedures requiring a clean colon and for the treatment of constipation. Consult the Product Monograph at <https://health-products.canada.ca/dpd-bdpp/index-eng.jsp> for important information on contraindications, warnings, precautions, adverse reactions, interactions, dosing. The product Monograph is also available by calling us at 1-800-550-6060.
