### PRODUCT INFORMATION

How Supplied	Fill Size	Dosing	Storage Conditions
Xiidra® (lifitegrast ophthalmic solution 5%) is supplied as a sterile, clear, colourless to slightly yellowish solution, in low-density polyethylene single-use containers, packaged in foil pouches.	5 single-use containers per pouch. Each single-use container contains 0.2 mL solution, corresponding to 10 mg lifitegrast.	Instill one drop of Xiidra twice daily (i.e., AM and PM, approximately 12 hours apart) into each eye using a single-use container. Discard the container immediately after use.	Store between 15°C and 30°C (59°F–86°F). Store single-use containers in the original foil pouch.

To order, please contact your preferred Distribution Centre or Wholesaler.
