

PENTASA® 1 g Suppositories Pack Size Change

Ferring Pharmaceuticals would like to inform you of a pack size change for PENTASA® 1 g suppositories. As of May 6, 2020, PENTASA® 1 g suppositories will be available and packaged in cartons of 28 suppositories versus cartons of 30 suppositories. Effective May 30, 2020 PENTASA® 1 g suppositories 30 pack will no longer be available for order.

NEW Pack Size Details:

Strength	Pack Size	DIN	UPC
1 g	(7 suppositories per blister, 4 blisters in carton)	02153564	779170555220

NOTE: The individual suppository price in the 28 pack remains the same as the individual suppository price in the 30 pack.

A reminder that PENTASA® suppositories are indicated for:

- Treatment of acute ulcerative proctitis and for long-term maintenance therapy in order to maintain remission and prevent relapse of active disease.

Consider PENTASA® for appropriate patients and refer to the PENTASA® Product Monograph for further information
